About Me

Full-Stack Developer with 1+ year of professional experience building responsive, high-performance web applications using React.js, Next.js, and TypeScript on the frontend, backed by Node.js and Express.js. Proficient in JWT authentication, RESTful API development, MongoDB, and ORM tools including Prisma and Drizzle. Hands-on experience with PostgreSQL and SQL, along with integrating AI/LLM APIs such as Google Gemini. Passionate about clean code architecture, performance optimization, and delivering production-ready solutions in Agile environments.

Skills

- **FRONTEND** : React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux , Context Api
- **BACKEND** : Node.js, Express.js, RESTful APIs, JWT Authentication, Middleware, Zod Validation
- **DATABASE & ORM**: MongoDB, Mongoose, PostgreSQL (Basic), SQL (Basic), Prisma, Drizzle
- **VERSION CONTROL & DEPLOYMENT** : Git, GitHub, Vercel, Netlify

Work Experience

- **Frontend Developer**
Boppo Technologies Pvt Ltd. Oct 2025 – Present
Developing and maintaining client-facing web applications using React.js, Next.js, and Tailwind CSS in a production environment.
Occasionally building full-stack features using Node.js, Express.js, and PostgreSQL — handling client requirements independently.

Projects

- **DeveloperOS AI — Full-Stack AI-Powered Learning Platform** 🐙 GItHub 🔗 View
 - Architected and built a production-grade AI-powered learning management platform using React 19, TypeScript, Node.js, Express 5, Prisma ORM, and PostgreSQL with JWT authentication and spaced repetition algorithm.
 - Designed a scalable RESTful API using Express 5 with Controller–Service architecture pattern, Zod schema validation, centralized error handling, CORS whitelist, and role-based route protection.
 - Integrated Google Gemini AI to dynamically generate topic explanations and code examples, with optimistic UI updates via TanStack Query for instant user feedback.
- **Freelancer Manager — Full-Stack Freelancer Dashboard** 🐙 GItHub 🔗 View
 - Built a full-stack freelancer management dashboard using Next.js App Router and MongoDB, enabling users to track clients, projects, invoices, and tasks from a single unified interface.
 - Implemented NextAuth.js for secure OAuth and credential-based authentication with session management and protected API routes.
 - Utilized SWR for client-side data caching and real-time revalidation, and Formik + Yup for robust form validation across 10+ form components — mimicking production-grade app patterns.

Education

B.Sc. in Information Technology — CGPA: 7.1 10Aug 2023 – Apr 2025
Lords Universal College, Goregaon, Mumbai

Certifications

- | | |
|--|---|
| React JS Trainee — SoluLab Pvt. Ltd. Jun 2024 – Sep 2024
Completed hands-on training in real-world React workflows, component-based architecture, hooks, and state management practices. View Certificate | React JS Mastery — Udemy
Comprehensive course covering React fundamentals to advanced patterns, performance optimization, and production best practices. View Certificate |
|--|---|
