WORK EXPERIENCE

BOPPO TECHNOLOGIES PVT LTD - (08 October, 2025 - Present)

FrontEnd Developer | (Reactjs / Nextjs / Node Js / Tailwind CSS) / Ai Assisted Tools / MCP Servers)

- Worked on frontend development for the Sarifa Insurance website using React.js and modern UI practices.
- Built UI components for Friday Release, a movie discovery platform similar to IMDb.
- Developed responsive frontend interfaces for a Bollywood movie release platform with movie listings and details.
- Collaborated with the team to improve UI performance and implement responsive design.

RELEVANT PROJECTS:

Freelancer Management Tracker (Next.js · NextAuth · MongoDB · SWR · Formik · Tailwind CSS) [Live Link](#) | [Github Profile](#)

- Built a full-stack dashboard to track clients and tasks with Pending / In Progress / Completed status.
- Implemented secure authentication using NextAuth.js with protected routes and session management.
- Designed dynamic dashboard showing client-wise task stats and real-time progress overview.
- Used SWR for data fetching with caching and Formik for form validation.

Bookmate – E-commerce Platform (React.js · Tailwind CSS · JSON Server) [Live Link](#) | [Github Profile](#)

- Built a book & course selling platform with product listing, cart and order management.
- Added search, filtering and fully responsive UI for smooth user experience.
- Developed backend APIs using JSON Server for products and orders handling.
- (note: initial Course Book Data load may take ~30 sec due to free tier cold start).

Full Stack Blog Platform (Next.js · Express.js · PostgreSQL · Drizzle ORM · JWT) [Github Profile](#)

- Built a production-grade blog app with full CRUD for posts and admin-only delete functionality.
- Implemented JWT-based authentication with protected middleware and request validation.
- Designed DB schema using Drizzle ORM with PostgreSQL for structured and scalable data management.
